PROFILE SUMMARY

Innovative professional, skilled in using programming languages to create user-friendly web pages, developing prototypes to communicate and present ideas to stakeholders, and maintaining brand consistency throughout development processes. Passionate about keeping abreast of latest and emerging technologies, making innovative suggestions for better solutions to problems, and collaborating with other professionals to achieve set, organizational goals.

EXPERTISE

- User Interface Development
- Responsive Web Development
- Version Controls
- Object-Oriented Programming
- Algorithm and Code Development
- RESTful APIs
- User Experience (UX) Design
- Git, GitHub, and GitHub Actions

WORK EXPERIENCE

SOFTWARE ENGINEER

Prunedge, Lagos State | September 2022-October 2023

- Build interactive and dynamic web apps using HTML, CSS, MUI, JAVASCRIPT, REACT.JS, React-Query, Formik, Yulp and Typescript.
- Work alongside backend developers, designers, and product managers during the development phases of projects.

SOFTWARE TRAINEE

Prunedge, Lagos State | April 2022-September 2022

- Build interactive and dynamic web apps using HTML, CSS, MUI, JAVASCRIPT, REACT.JS, React-Query, Formik, Yulp and Typescript.
- Work alongside backend developers during the development phases of projects.

EDUCATION

MASTER OF SCIENCE IN COMPUTING

Sheffield Hallam University- 2023
Sheffield, UK

MASTERS OF ENGINEERING IN ELECTRICAL AND ELECTRONICS ENGINEERING

Federal University of Technology, Akure | Ondo
2021

**BACHELOR OF ENGINEERING IN
ELECTRICAL AND ELECTRONICS ENGINEERING**
Federal University of Technology, Akure | Ondo
2016

TECHNICAL SKILLS

- **Markup Languages:** HTML5 & CSS,
- **Programming Language:** JavaScript, Typescript
- **Framework:** Bootstrap, Tailwind, MUI
- **Library:** React JS, Redux, React-Query, Next JS, TypeScript
- **DevOps:** AWS, AZURE

WORK EXPERIENCE (CONTD.)

SOFTWARE DEVELOPER TRAINEE

Coding Bootcamp, ITSkillCenter LTD| Ogba, Lagos State
| October 2021-Date

- Learnt and utilized HTML, CSS, BOOTSTRAP, JAVASCRIPT, REACT.JS, PHP, and Laravel for web development.
- Assist in developing screens by turning user design into web pages using HTML, CSS AND JAVASCRIPT
- Participated in the Algorithm Challenge and collaborated with engineers to build web apps.
- Analyze UX/UI design for responsive layout.
- Work alongside developers during the development phases of projects.

IT SUPPORT ANALYST

Airopay Incorporation | November 2020 - June 2021

- Developed new processes to increase productivity and manage business-sensitive information, thus maintaining high quality and quantity performance standards.
- Engaged in processing orders and applications and kept detailed records of customer transactions while responding to queries.
- Contributed to strategic initiatives and prepared various account analysis and reports in compliance with company policies.
- Built Business Intelligence dashboards to visualize media performance at various data granularities and operationalize insights and recommendations to the team.
- Assisted manager in developing weekly reporting decks from MSSQL to present KPI performance for clients while analyzing given data and draw correct inferences, in keeping with the objectives of the analysis.

CORE SKILLS & COMPETENCES

- Working knowledge of design methods and site development using major design tools with demonstrated ability to create solutions that meet strategic objectives and concepts.
- Proficient in utilizing technological tools such as HTML CSS markup languages, JavaScript programming language to create and transform mockups/prototypes into quality, user-friendly websites.
- Exceptional multilevel communicator possessing stellar problem-solving, critical thinking and program management skills.
- Sound knowledge and application of software best practices in writing effective, scalable and reusable code with the ability to implement security and data protection solutions.
- Capable of collaborating with other front-end developer and the web designer to understand user requirements and create top-notch user interfaces.
- Outstanding ability to work independently or collaboratively to meet deadlines with the capacity to cope with changing environment and responsibilities.
